Re: Granite City Waste Pile

Dear Brad:

As your are aware, NL Industries, Inc. (NL) has periodically arranged for the application of dust suppressants to the Taracorp Waste Pile in Granite City, Illinois to assure that any potential dusting from the pile is controlled.

NL employed Cam Construction of South Roxanna, Illinois for these applications in the past, and proposes to have them make another application to the pile in the near future. This pending application was discussed with you on June 12, 1991, and it is NL's understanding that the EPA concurs with this action.

Very truly yours,

  
Stephen W. Holt  
Senior Environmental Engineer

SWH/dm/735
